## Participating organisations

My organisation plans to work with other supporting organisations that are not going to host our participants, but are going to help with the implementation of activities.

No

A supporting organisation is an organisation assisting your organisation in practical aspects of project implementation that do not concern core project tasks (as defined in the [Erasmus quality standards](#)). Please note that hosting organisations that provide learning content and mentoring to your participants are not considered supporting organisations, unless they are at the same time supporting you in your other project management activities.

If you plan to work with a supporting organisation, you must declare it here. If you want to add a supporting organisation to your project later on during implementation, you will have to request a formal amendment of your grant agreement.

## Erasmus Plan

The following is the list of Erasmus Plan objectives linked to your accreditation. Please consider these objectives carefully when requesting your activities in the next section. Above all, you should make sure that the activities you request can contribute to achieving your Erasmus Plan objectives - this will be one of the key criteria for evaluating the implementation of your activities and your accreditation.

## Activities

### List of activities

#### How does the budget request work?

The figures that you provide here will be used in the scoring of your budget request and will serve as your targets for implementation. If the National Agency is not able to provide budget for all of the requested activities, the targets included in your grant agreement will be adjusted accordingly. At the end of the grant agreement, your results will be evaluated based on the agreed target figures. For this reason, it is very important to make the most realistic request possible.

At the same time, flexibility is an important feature of the accreditation system. During implementation, the actual number of participants and duration of activities can change. The key principle to keep in mind is that you should always make full use of the grant provided by your National Agency and that you should be able to explain your implementation decisions in relation to your Erasmus Plan objectives.

#### Finding partner organisations for your mobility activities

Erasmus+ provides various tools and opportunities to find partners for your mobility activities:

- **EPALE - the Electronic Platform for adult learning in Europe** offers an online partner-finding tool. You can register your organisation on the platform in order to post partner-finding announcements and search through announcements made by other organisations: <https://epale.ec.europa.eu/en/erasmus-adult-education>
- **Training and Cooperation Activities** are regularly organised by Erasmus+ National Agencies. They include contact seminars, online events, and other partner-finding opportunities for Erasmus+ applicants and beneficiaries. Information about TCAs is available on relevant National Agency websites and the SALTO Education & Training TCA Resource Centre website: <https://salto-et.net>
- **The Erasmus+ Project Results Platform** allows you to search for all accredited organisations and approved projects: <https://erasmus-plus.ec.europa.eu/projects>

Please choose the types of activities you would like to implement in your project and complete the following table with the number of participants, duration and other information.

Before completing this table, make sure that you are familiar with rules of each activity type as presented in the Erasmus+ Programme Guide. It is best to complete the table with the Programme Guide open.

Regarding activity duration, please note that travel days are encoded in the second table, separately from the duration of activities.

Travel days do not count towards the minimum, maximum or target duration of activities since participants are not receiving any learning content during the travel days. Please make sure that you do not include travel days in the first table. You should enter them only in the dedicated column of the second table.

Pay particular attention to types of activities reserved for staff and for learners. Staff are teachers, trainers and other persons working in adult education. Adult learners are persons that are being taught.

Secondly, please note important differences between group and individual activities for learners. Individual mobility format requires an individual learning programme, evaluation and recognition of learning outcomes for each participant. In group activities, a single joint learning programme is defined for the whole group and individual evaluation is not required. Accordingly, different amounts of organisational support will be provided depending on the activity type. Travelling and accommodation arrangements (whether learners stay together or separately) are not relevant for the definition of the activity type.

For a complete description of the activity formats and comparison of funding rules, please refer to the Programme Guide.

| Activity type | Number of participants | Total duration (in days) | Average duration (in days) | Number of participants with fewer opportunities | Number of participants in blended mobility activities | Number of persons using sustainable means of transport (green travel) |

## Exceptional costs and inclusion support for participants

In this section you can request Exceptional costs and Inclusion support for participants. As opposed to standardised unit costs applicable for other types of costs, these budget categories are funded based on actual expenses. These non-standard costs require specific description and justification in order to be approved. Before making a request, please read the funding rules in the Programme Guide to make sure the type of expense you are requesting is eligible.

| Cost type    | Activity type | Estimated number of participants requiring support | Description and justification | Estimated cost (EUR) | Support rate (%) | Eligible amount (EUR) |
|--------------|---------------|----------------------------------------------------|-------------------------------|----------------------|------------------|-----------------------|
| <b>Total</b> |               |                                                    |                               | <b>0,00</b>          |                  | <b>0,00</b>           |
