Project rationale

In this section, you are asked to explain the aims of your project, what you want to achieve and what are its expected benefits for participants and participating organisations. Make sure to read the questions carefully and address all sub-questions.

Aims

Please describe the idea of your project including the needs you have identified (e.g. needs of participating organisations and young people actively involved in the preparation and implementation of the project, as well as the needs of young people targeted by the activities) and the project's objectives.

Does your project address one or more of the priorities defined in the context of the [EU Youth Dialogue](#) or the [European Youth Goals](#)? If yes, please explain how.

How does your project link to the objectives of the Erasmus programme and more specifically those of Youth Participation Activities?

Target group

During the lifetime of your project, young people will probably be involved and targeted in different ways in the project activities.

- Where the applicant is an informal group of young people, its members will directly implement project activities, but also profit from them
- Where the applicant is an organisation, this organisation will have some young people who are actively involved in the preparation/implementation of the project and profit from taking part
- In both cases, the project's activities may also address other young people, and these young people will be the activities' wider target group(s).

What are the target groups of the individual activities of your project?

Expected impact

How will your project benefit the organisation(s)/informal group(s) and the young people actively involved in the preparation and implementation of the project, during and after the project lifetime?

How will your project benefit young people in the wider target group (i.e. young people participating in the activities, beyond the informal group of young people or the young people actively involved in the preparation and implementation of the project where the applicant is an organisation) during and after the project lifetime?

What would be the impact of your project at local, regional, national and/or European level?

Topic

Please select up to three topics addressed by your project

Description of the activities

In this section, you are asked to provide further details on your project, the activities you will implement and how you will address quality elements of a quality project such as preparation activities, identification and documentation of learning outcomes etc. Every project will have a range of activities such as meetings and ongoing, regular activities. These are necessary for the implementation of the project and should be described as well as potential mobilities and physical events.

Please list in chronological order all the different activities that you will carry out in your project. You should include all phases such as preparation, implementation of activities, follow-up and sharing of results. If your project includes mobilities and/or physical events, please mention them in the correct month (please note if your project includes mobility activities and physical events, you will be asked for more details in the section project details below and you will have to attach the timetables for all physical events and mobility activities using the template provided in [Annexes](#).

Month	Activity(ies)
Month 1	

Please describe the profile of the target groups you will address by the different activities, including their age. For target groups beyond the informal group of young people and beyond the young people who are actively involved in the preparation and implementation of the project, please describe how they have been, or will be selected.

Please describe how the target groups will be involved in planning, preparing, and implementing the activities and in the follow-up of the different activities. Please also describe the involvement of target groups beyond the informal group of young people and the young people who are actively involved in the preparation and implementation of the project.

Please provide an estimate of the number of young people that will not take part in physical events or mobility activities, but still will participate in other activities of your project. The number may be 0 (if every participant at some point takes part in a physical event or a mobility activity).

Will your project also involve decision makers?

How will the participants cooperate and communicate between them to prepare and follow-up on the project activities? How did you choose this channel/these channels of communication? If relevant, please distinguish between the informal group of young people (applicant or partner), the young people actively involved in the preparation/implementation of the project (if applicant or partner is an organisation) and other participants.

Which learning outcomes or competences (i.e. knowledge, skills and attitudes/behaviours) are to be acquired/improved by the participants in the project activities? If relevant, please distinguish between the informal group of young people (applicant or partner), the young people actively involved in the preparation/implementation of the project (if applicant or partner is an organisation) and other participants.

Will the young people involved in implementing the project need the support of a coach/several coaches?

Project details

In this section, you are asked to provide further details on your project, the activities you will implement and how you will address crucial elements of a quality project such as preparation, identification and documentation of learning outcomes etc. A typical project will include activities that are neither mobility activities nor physical events. These are equally important for the implementation of the project. In the section "Description of activities", such activities should be described along with mobilities and events (if relevant).

Are you planning to carry out Youth participation events and Youth participation mobilities in your project?

Participant contribution and fees

If deemed necessary, the beneficiary organisation may ask for a contribution paid by the participants prior to departure. The size of the participants' contribution must be low and remain proportional to the grant awarded for the implementation of the activity, must be clearly justified, its purpose well explained to the participants, collected on a non-profit basis, and may not create unfair barriers to participation. Fees cannot be collected from participants with fewer opportunities, the beneficiary can use the cost category "inclusion support" to cover any specific needs derived from the barriers faced by these participants. Additional fees or other participants' contributions cannot be collected by other service providers chosen by the beneficiary organisation.

Are you planning to ask for any contributions from participants?

No

Project design

Non-formal learning

What will the participants learn during the activities? Which learning outcomes or competences (i.e. knowledge, skills and attitudes/behaviors) are to be acquired/improved by participants in the activities? What will your project include as [non-formal learning methods](#)?

Preparation, support and follow-up

How will you prepare the participants before the start of the activities and how will you support them during and after the activities?

What measures will you put in place to ensure the safety and protection of participants?

Recognition of learning outcomes

How will you help participants to become aware of what they have learned and which competences they have developed or improved? Please remember to include the methods that support reflection and documentation of the learning outcomes in the description of activities.

The Erasmus Programme promotes the use of instruments/certificates like [Youthpass](#) or [Europass](#), to validate the competences acquired by the participants during their experiences abroad. Will your project make use of such European instruments/certificates?

Are you planning to use any national instrument/certificate? If so, please describe which one.

Participant with fewer opportunities

Are participants involved in activities facing challenges that hinder their participation?

No

Virtual learning/Blended activities and use of virtual components

Do you foresee Virtual/Blended activities and/or the use of any virtual component, before, during or after the activity?

No

Environmental friendly practices

Will you include sustainable and environmental-friendly practices in your activities?

Project management

The purpose of this section is to assess how you will manage your project and make it a quality experience for all participants. Make sure to read the questions carefully and address all sub-questions.

How will you manage the project (agreements with partners etc.) and make sure that it is done in line with the Erasmus Youth Quality Standards? You will find the quality standards further down in the application form.

How will you organise the practical and logistical part of the project (e.g. ongoing activities, communication with participants and partners, if needed mentoring and support, and if relevant travel, accommodation, insurance, visa, social security, etc.)? What measures will you put in place to ensure the safety and protection of participants?

Evaluation

How will you evaluate your project's success? Which activities will you carry out in order to assess whether, and to what extent, your project has reached its objectives and results?

Sustainability of the results

What will you do to make sure that your project continues to have effects also after it ends? What activities, if any, are going to continue to take place even after the project's end date (once the funding has finished), and how will they be beneficial to your target groups?

Dissemination of project results

How will you make your project visible outside your organisation(s)/ informal group(s) of young people and the young people actively involved in the preparation and implementation of the project? What concrete results of the project do you plan to disseminate, how and to whom?

How will you involve participants in such activities? If relevant, please distinguish between the young people actively involved in the preparation and implementation of the project and other participants.

Erasmus Youth Quality Standards

Organisations implementing Erasmus learning mobility activities must adhere to a set of quality standards. These standards exist to ensure quality experience and learning outcomes for Erasmus participants, and to make sure that all organisations receiving the Programme's funding are contributing to its objectives.

Please OPEN THE DOCUMENT and carefully read the Erasmus+ quality standards presented below and confirm your agreement. [erasmus-youth-quality-standards_en.pdf \(europa.eu\)](#)

Subscribing to Erasmus quality standards

To apply for Erasmus+ accreditation, your organisation must subscribe to the Erasmus+ Youth quality standards and accept to be evaluated based on those standards. Since the Erasmus+ accreditation is valid for a longer period, your organisation's performance in maintaining the Erasmus+ Youth quality standards will also influence how much funding you may receive in subsequent years.

Please read the following statements carefully and confirm your agreement:

- ☐ I have read the above Erasmus Youth quality standards
- ☐ I confirm that I, my organisation and the co-beneficiaries (where applicable) adhere to the Erasmus Youth quality standards
- ☐ I understand and agree that Erasmus Youth quality standards will be used as part of the criteria for evaluation of the activities implemented under this project
